

Figure 1 displays 100 small plots arranged in a 10x10 grid, showing the spatial distribution of the 100 most abundant species. Each plot is a 10x10 grid of cells, with some cells containing a number representing the species count. The plots are arranged in a 10x10 grid, with the first row labeled 1-10 and the first column labeled 1-10. The plots show a variety of spatial patterns, from uniform distributions to highly clustered distributions.
